

March 2019

Dear Year 9 Parents

Year 9 Design and Technology Workshop – Tuesday 19th March 2019

The Design Department has been invited to take part in a really exciting Design Workshop organised by the University of Gloucester.

The workshop will be an invaluable opportunity for students to learn about 'Wearable Soundbytes'.

It is suitable for anyone who is intending to choose the GCSE Design & Technology option next year.

The whole day will give students the experience of working alongside University lecturers in Design, who are experts in their field along with specifically trained students from fashion, product design and music undergraduate courses at the University of Gloucester.

Throughout the day, the students will develop their skills in design, creative problem solving, sound technology, sustainability, fashion and of course, teamwork.

The final design creations will be judged by an Engineer from Dyson and a prize for the winning team will be awarded.

We will leave the school at approximately 9.30am and will return by 3.30pm.

Students will need to bring a packed lunch, drinks and snacks. They will need to wear their school uniform.

Unfortunately, due to the special nature of this day, places are limited to 10. In the event that we are oversubscribed – names will be drawn out of a hat on Friday 15th March 2019 at 1.30pm and students will be informed by email if they have a place.

Therefore please email me on whittlek@denmarkroad.org by this deadline if you would like your daughter to take part in this event.

Yours sincerely

Mrs K Whittle

Subject Leader for Design & Technology
