

Photography

This course will help you develop photographic skills far beyond 'happy snapping'.

You will have access to a DSLR camera and learn different techniques of photography. As well as undertaking research into some of the iconic photographers of all time.

Camera skills include:

- Using aperture
- Focus and Exposure
- ISO and white balance
- Composition
- Light and colour

You will have an opportunity to share your images with other students, work in teams and take part in presentations.

PHOTOGRAPHY IS OFFERED AS PART OF OUR DISCOVER PROGRAMME.
