Dear Parents/Carers

### **Contribution towards Art Textiles and Engineering & Design Projects**

The subjects of Art Textiles and Engineering & Design provide a challenging and engaging curriculum. It aims to equip our students with a wide range of skills and knowledge that can be applied to solve problems in a practical and innovative way.

To ensure these subjects are delivered most effectively, emphasis is put on the practical element of the course, and to do this we need to use some materials that are consumable. To help manage these costs we ask parents/carers of Year 7 to make a contribution of £30.00. This payment will cover materials used for the next three years of your daughter's education and enable her to take home the products that she has made.

This payment does not include the area of Food Technology, where ingredients will need to be independently brought in by the student, as and when required.

I would like to say thank you in advance for your understanding and ask that payment is made via Parentpay using your log in details.

Yours sincerely

**Miss C Giblin**  
**Headteacher**
